

The budget files are formatted in Adobe Acrobat PDF. You may not be able to view the files properly if you are using Acrobat Reader Version 5.0 or earlier.

For optimal viewing, download the latest Free version of Acrobat Reader (version 7.0) by clicking on this link (www.adobe.com/products/acrobat/readstep2.html) or copy/paste the link into your web browser.

Viewing may also be improved by using the most current version of Microsoft's web browser (Internet Explorer), which can be downloaded Free using the following link: www.microsoft.com/windows/ie/downloads/default.mspx.

FY 2006 DOE Budget Request to Congress

Introduction

The following documents reflect the Department of Energy's FY 2006 Budget Request to Congress, as of February 7, 2005.

- [Summary Budget Documents](#).
- [Detailed Budget Justifications](#).

To view the latest updates to the request, check the DOE Budget Office website at <http://www.mbe.doe.gov/budget>.

Printed copies of the Department of Energy budget justifications can be purchased from the Government Printing Office (GPO). To order by phone, contact the GPO bookstore at one of the following numbers: (202) 512-0132, (202) 512-0133, or (202) 512-0135.

Text in [blue](#) or [red](#) are links to other documents.

For optimum text searching, use the latest version of Acrobat Reader (www.adobe.com/products/acrobat/readstep2.html).

If you have trouble reading the text of the budget materials, [click here](#) for tips on making the text more readable.

Summary Budget Documents

Budget Highlights — The highlights is a high level narrative summarization of the Department's budget request.

Summary Table — This is a short tabular summarization of the request by appropriation account and by first tier organization.

Control Tables — This is a somewhat longer tabular summarization of the request at the level we call decision units. It is available in order by **appropriation** account or in first tier **organization** order.

Statistical Table — This table shows the budget request at the level at which Congress controls our spending. In most areas, it is more detailed than the Control table.

Laboratory Table — The lab table is a tabular summarization by decision unit broken out by the various laboratories at which DOE does work.

State Table — The state table is like the lab table, except broken out by each state in which DOE does work, rather than by laboratory.

Detailed Budget Justifications

Energy and Water Development Appropriations

(Volume 1)

National Nuclear Security Administration Weapons Activities

- ◆ Directed Stockpile Work
- ◆ Campaigns
- ◆ Readiness in Technical Base and Facilities
- ◆ All Other Weapons Activities
- Defense Nuclear Nonproliferation
- Naval Reactors
- Office of the Administrator (NNSA)

(Volume 2) Other Defense Activities

- Security and Safety Performance Assurance
- Environment, Safety and Health
- Legacy Management
- Nuclear Energy
- Defense Related Administrative Support
- Hearings and Appeals

Safeguards and Security Crosscut

(Volume 3) Energy Supply

- Energy Efficiency and Renewable Energy
- Nuclear Energy
- Environment, Safety and Health
- Electric Transmission and Distribution
- Legacy Management

(Volume 4) Science

- High Energy Physics
- Nuclear Physics
- Biological and Environmental Research
- Basic Energy Sciences
- All Other Science

Departmental Administration

- Office of Inspector General

Civilian Radioactive Waste Management

- Nuclear Waste Disposal
- Defense Nuclear Waste Disposal

Detailed Budget Justifications

(Volume 5) Environmental Management

- Defense Site Acceleration Completion
- Defense Environmental Services
- Non-Defense Site Acceleration Completion
- Non-Defense Environmental Services
- Uranium Enrichment Decontamination and Decommissioning Fund

(Volume 6) Power Marketing Administrations

- Southeastern Power Administration
- Southwestern Power Administration
- Western Area Power Administration
- Bonneville Power Administration

Interior and Related Agencies Appropriations

(Volume 7)

Fossil Energy Research and Development

Naval Petroleum & Oil Shale Reserves

Elk Hills School Lands Fund

Strategic Petroleum Reserve

Northeast Home Heating Oil Reserve

Clean Coal Technology

Energy Conservation

- Vehicle Technologies
- Weatherization and Intergovernmental Activities
- Industrial Technologies
- All Other Energy Conservation

Energy Information Administration

Economic Regulation

Tips for Making the Text more Readable

While we have designed the format of most of the budget material to be readable when viewed on screen, you may still find it difficult to read some of the text that is presented in landscape orientation. Try some or all of the tips below to make the text larger and clearer. (If the reason it is unclear is the content of the text, rather than its appearance, these tips may not help.)

- Maximize the window.
 - ◆ If the Adobe Acrobat window in which the budget is being displayed does not fill the screen, the fonts are being displayed in a smaller size than necessary.
 - ◆ Click the Maximize button in the upper right corner of the window to make the window fill the screen.
 - In Windows 95 and later, the maximize button looks like a rectangle.
 - In Windows 3.1, the maximize button looks like a triangle pointing up.

Tips for Making the Text more Readable

- Hide the bookmarks.
 - ◆ Bookmarks appear on the left side of the window and serve as a table of contents for the file.
 - ◆ You can hide the bookmarks to make more room for the text, and then redisplay it later when you want to jump to a new section.
 - ◆ With version 4 and 5 of Adobe Reader, hide and display the bookmarks by clicking on the Show/Hide Navigation Panel icon [] or by selecting Show Bookmarks or Hide Bookmarks from the Window menu.
 - ◆ With version 3 of Adobe Reader, hide the bookmarks by clicking on the Page Only icon [] or by selecting Page Only from the View menu. Redisplay the bookmarks by clicking on the Bookmarks and Page icon [] or by selecting Bookmarks and Page from the View menu.
- Set the zoom to Fit Visible.
 - ◆ By default, most of the budget documents display from the left edge to the right edge of the page.
 - ◆ The Fit Visible mode hides the blank part of the page and only displays from the left margin to the right margin, which results in the text being shown at a larger size.
 - ◆ To set the zoom, select Fit Visible from the View menu. You may also want to try other zoom settings to see if they work better.

Tips for Making the Text more Readable

- Change the text smoothing function.
 - ◆ Text smoothing uses gray dots to make the edges of text look less jagged.
 - ◆ Depending on your screen settings, this may either improve the appearance of the text or may make the text look fuzzy. Try it both ways to see which looks best.
 - ◆ In version 5 of Adobe Acrobat, select Preferences from the Edit menu, and then select Display from the list on the left side of the window. Then select Smooth Text. You can also try turning on CoolType to see if that helps.
 - ◆ With version 3 or 4 of Adobe Acrobat, select Preferences from the File menu, and then select General. Then click on the box beside Smooth Text and Monochrome Images to change the setting.
- Set the screen mode to a higher resolution.
 - ◆ Changing the screen resolution does not affect the size of the text on screen, but changes the number of pixels available to draw each character. Having more pixels to work with allows the computer to draw the characters with more detail, which should make them clearer.
 - ◆ In Windows 95 and later, you can generally click the right mouse button on the background wallpaper and select Properties. Then click on the Settings tab and move the slider for Desktop Area towards More.
 - ◆ In Windows 3.1, procedures for changing screen resolution vary, depending upon the video card in your system.
